Alphamatic

Offsite Backup is Essential

Protect Your Data Before It's Too Late!

Alphamatic Systems is your trusted partner for top-notch IT solutions and professional services in Malaysia. We deliver premium quality IT products and end-to-end solutions, covering systems and storage, networking, security, virtualization, data protection, wireless connectivity, and managed IT services.

Professional Cloud Backup Solutions with VEEAM

As a recognized Veeam Cloud Service Provider (VCSP) in Malaysia, Alphamatic Systems ensures your data is always protected. Veeam, the industry leader in backup and recovery solutions, empowers us to deliver secure, reliable, and scalable Backup as a Service (BaaS).

What is Alpha Care™ Backup as a Service?

AlphaCare BaaS, also known as cloud backup, provides offsite data storage for your business. We automatically and securely back up your critical files, folders, or even entire hard drives to our remote, cloud-based data repository—ensuring your data is safe, no matter what.

PROMOTION ALERT!

Features & Benefits of AlphaCare Backup as a Service

1 End-to-End Encryption:
Your data is encrypted both during transfer and storage, ensuring complete security.

2 Real-time Monitoring:
Get instant alerts and track backups live, ensuring data availability and reliability.

3 Flexible Backup Scheduling:
Tailor your backup schedules to fit your business requirements with customizable options.

4 Rapid Recovery:
Quick and reliable data recovery with no hidden fees, ensuring minimal downtime during data loss or disasters.

5 Scalability:
Effortlessly increase storage and processing capacity as your business grows.

6 Cost-Effectiveness:
Pay only for what you use, avoiding upfront hardware and maintenance costs, while supporting unlimited users.

How We Deliver Backup-as-a-Service with Minimal On-Premises Hardware

Satisfy Business Continuity Compliances in off-site environment.
- Immutability
- Second set of backup
- Off-site backup
- Data integrity validation

BOSS CLOUD

First set backup stored off-site

WWW

Our Backup-as-a-Service securely stores your data in the cloud through our reliable BOSSCloud platform. This reduces the need for on-site hardware while still meeting all security and compliance standards, such as keeping backup copies and ensuring data accuracy. It's a streamlined and flexible solution that keeps your data protected without the hassle of managing bulky equipment.
