

# AlphaCare™ Ransomware Rapid Recovery (R³)

## Built for High-Stakes, Regulated Business Environments

When ransomware strikes, **every minute of downtime impacts operations, revenue, compliance, and stakeholder confidence.** AlphaCare Ransomware Rapid Recovery is designed for organizations operating in **complex, regulated, and high-visibility environments**, where resilience and accountability matter most.

## Why a Stronger Recovery Strategy Is Critical

Organizations with complex operations face higher expectations for:

- Business continuity & operational resilience
- Regulatory, audit, and governance readiness
- Data integrity and system availability
- Reputation and stakeholder trust

Traditional backups alone are no longer enough. Modern ransomware targets backups, exploits recovery gaps, and prolongs downtime.

## What Is AlphaCare Ransomware Rapid Recovery?

A specialized managed recovery service that enables **fast, clean, and reliable system restoration** after a ransomware incident — without operational chaos or uncertainty.

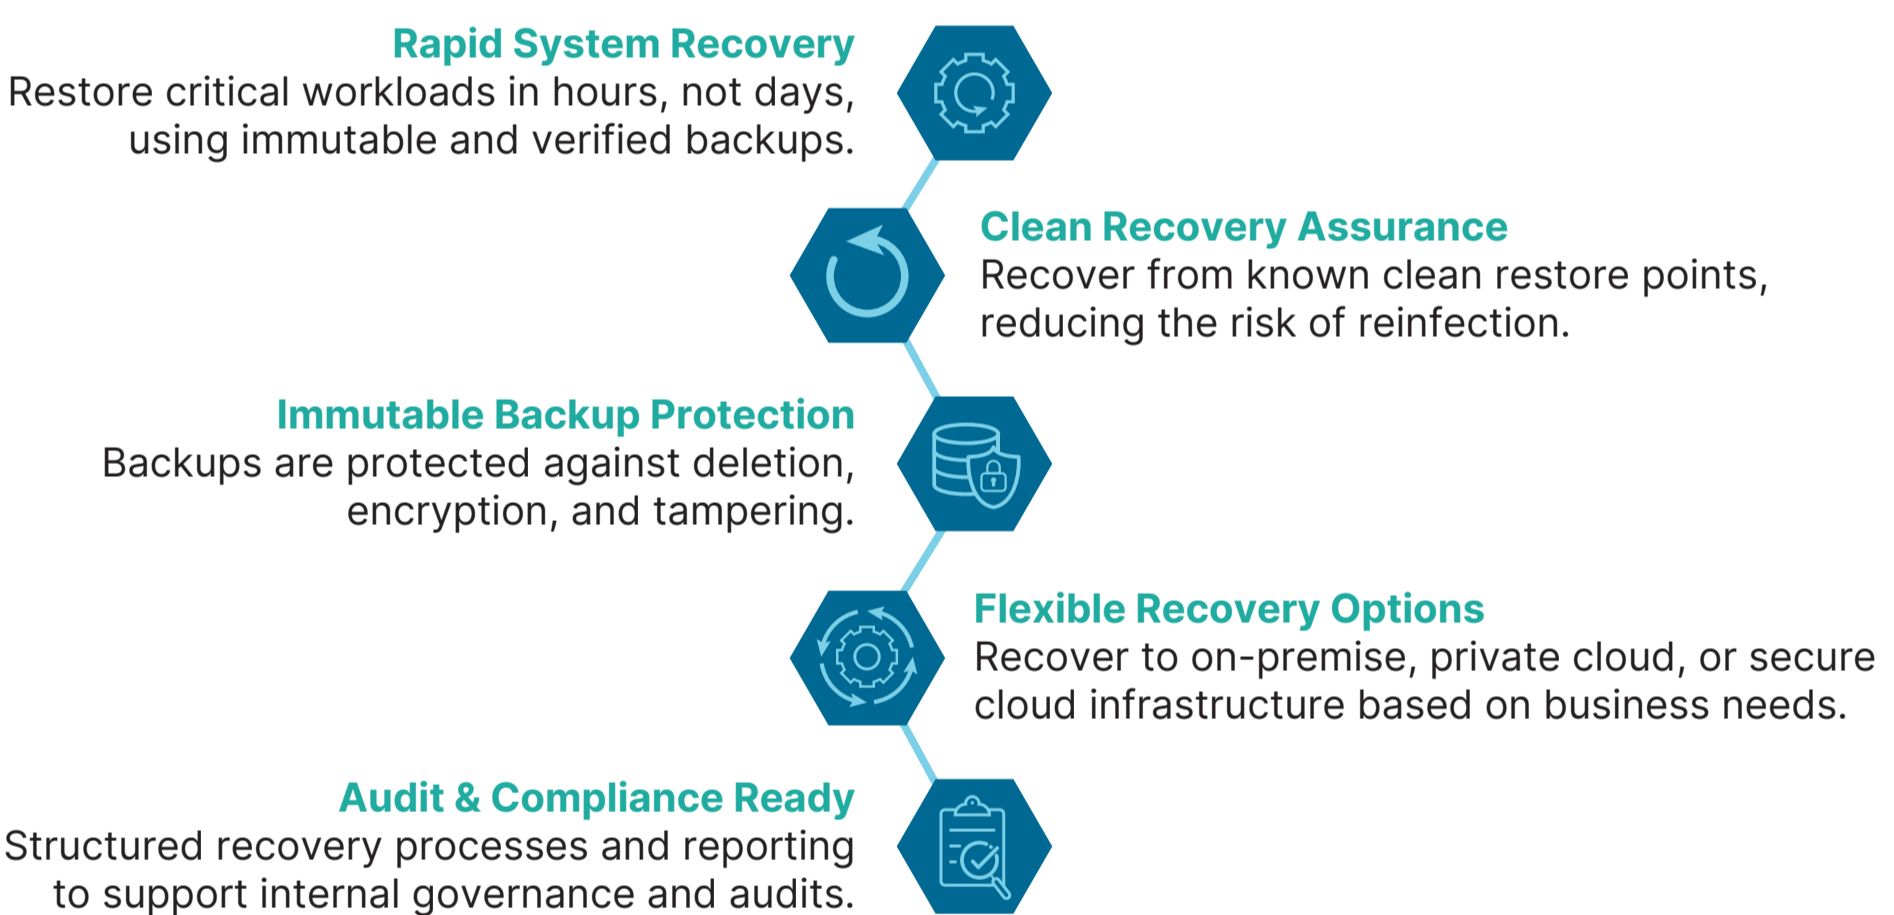

Powered by enterprise-grade technologies and proven recovery processes, AlphaCare helps PLCs:

- Recover without paying ransom
- Minimize operational downtime
- Regain control with confidence

**Upcoming FREE Webinar**  
Date: 9<sup>th</sup> April 2026 / July 2026
