

BOSSCloud

Built for Enterprise.
Backed by Experience.

A Malaysian cloud platform powered by Alphamatic Systems, with

40+ years of IT expertise.

Trusted by enterprises.

Powered by **Alphamatic Systems**, BOSSCloud is a secure, scalable cloud infrastructure designed for **large and demanding IT environments**.

As a Malaysian IT company established in 1983, Alphamatic understands the complexities of enterprise IT. Today, **BOSSCloud is trusted by many businesses** to host critical workloads, applications and data in a reliable cloud environment.

Why Host Your Enterprise IT on **BOSS** CLOUD ?

Built for Large Environments

Designed to support enterprise workloads, applications and growing IT infrastructure with flexible and scalable resources.

Enterprise-Grade Security

Protect your cloud environment with multiple layers of security, including **firewall, IDS/IPS, DDoS protection, WAF, SIEM and endpoint protection**.

Flexible Infrastructure

Support for **VMware and Hyper-V** makes it easier to migrate and run existing enterprise workloads in the cloud.

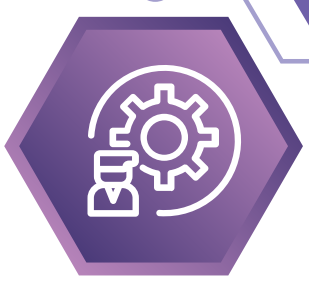

Reliable & High Availability

Hosted in a **Tier-3 data centre with 99.9% uptime assurance**, providing a dependable environment for business-critical operations.

Backup & Disaster Recovery

Protect critical workloads with **backup and disaster recovery solutions** designed to improve resilience and recovery readiness.

Backed by IT Expertise

More than cloud infrastructure. Get the support of an experienced **IT solutions and services provider** to help manage your cloud environment.

Enterprise Cloud. Backed by Experience.

From **workload migration and infrastructure modernization to backup and disaster recovery**, BOSSCloud provides the infrastructure, security and expertise to support your enterprise IT needs.
